ACADEMY OF GERIATRICS
&
MULTI DISCIPLINARY RESEARCH
UNIT,
DR. S.N MEDICAL COLLEGE, JODHPUR**

**Workshop
on
Research Methodology & Scientific Paper
Writing**

**18th - 19th August 2018
(Saturday & Sunday)**

**VENUE:
COUNCIL HALL
DR. S.N. MEDICAL COLLEGE, JODHPUR**

ABOUT THE WORKSHOP:

Right steps in a right direction from the very beginning must be taken to get right results. That's why it is said that "well begin is half done". It means how to start and manage the whole process of any event requires proper planning. In research, it is the methodology and not contents decide the future of any event. Keeping in view the necessity of research methodology, this workshop is formulated by the research wing of the Indian Academy of Geriatrics in collaboration with Multi Disciplinary Research Unit of Dr. S. N. Medical College, Jodhpur for research scholars and medical professionals who are pursuing their research activities, the workshop will help the participants acquaint themselves with the dynamic trends of research methodology which may shape their research work in the right direction. This workshop will provide promotional and learning platform.

This workshop will be useful to those, especially research scholars, who are interested in knowing the answers to the questions such as:

- > What are requirement and expectations from the research?
- > How to design research question?
- > What statistical methods to be used for analysis of data?
- > What are concerns regarding research ethics and plagiarism?
- > What are the various research funding agencies and how to apply for it?
- > How to write scientific paper, case reports and review articles?
- > How and where to publish your research?
- > What are the current regulatory regulations and guidelines for conducting clinical trials?

Four credit points will be awarded by RMC to the participants.
